

RESEARCH WORKSHOPS FOR PHD

MASTER CLASS CHAIR GROUPS

Visiting INREEF chair groups at WUR and University of Twente

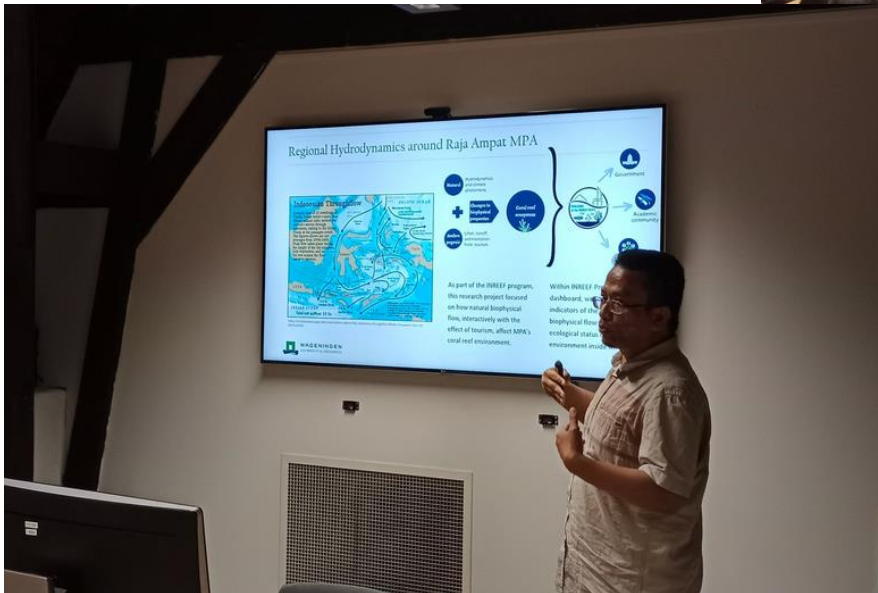

NATURALIS LIVE SCIENCE WITH CARL FOLKE

A new understanding

- Humanity part of the biosphere – not just linked but intertwined
- Global social-ecological change – not just climate change
- The future of people as part of Earth – not just the environment
- A resilient biosphere the basis for development, wellbeing, health
- Transformations to global sustainability necessary, possible, desirable
